

13TH JULY 2022

The site plan for the Optiven Getaway project is a detailed layout of a residential development. It features a grid of 59 rows of plots, each numbered and color-coded. The plots are arranged in a way that allows for a variety of housing options, from small units to larger villas. Key features of the plan include a central 'Spiral Viewtower' and 'Volleyball Pitch', a 'Tree & Flower Nursery' and 'Photo/Picnic Zone' near a lake, and a 'River (Dam outlet)' flowing through the site. The plan also shows a 'Jogging Track' and a 'Forest' area. The site is bounded by a '9M WIDE ROAD' on the left and a 'GATE 1' entrance at the top. The overall layout is organized into a grid with various plot sizes and shapes.
