WORD FROM THE C.E.O. | Celebrating Milestones at end of Quarter 1 2026

“Our focus on adding value to our stakeholders continues to be a reality and as we wrap up the first quarter, we are confident that the future is even more promising.”

The end of April marks a significant stage on the roadmap to realising the goals and aspirations set for the year 2026. It is in this month that we continued to empower investors to own property with Optiven with two special campaigns in the month of April. Our **#VumaNaOptiven** has been especially popular with investors taking advantage of the unique cashback of 2,500 shillings for every 250,000 shillings paid for existing project purchases or for new investments. Our focus on adding value to our stakeholders continues to be a reality and as we wrap up the first quarter, we are confident that the future is even more promising. We take this opportunity to thank our customers for investing with us under this campaign.

While the world celebrated Easter, the Optiven Foundation took the opportunity to reach out to the forgotten citizens throughout the Easter period. Am happy to have led the delegation to three counties of Machakos, Nyeri and Kirinyaga where we shared a meal and gift hampers with the older folks in need.

As part of our footprint on the Sustainable Development Goals adherence, the Optiven family participated in key international days in April. We celebrated the milestones achieved both internally and by extension on ground through observation of the International Day of Sport for Development and Peace (IDSDP), observed annually on April 6; International Girls in ICT Day and the World Book and Copyright Day both celebrated on April 23.

April also provided us an opportunity to empower investors in the United States of America through diaspora trips. A team serving different investors across the United States is expected back in the country after providing our investors with updates on projects and delivery of title deeds. The diaspora market remains a key stakeholder of our investors. We also had an opportunity to engage with stakeholders at the 2nd edition of the Africa Urban Forum held in Nairobi between 8th and 10th of April 2026 courtesy of the African Union and the Government of Kenya through the State Department for Housing.

Finally, we had an opportunity to meetup with investors who have completed their payments and acquired title deeds for their investments at Amani Ridge the Place of Peace in Kiambu, at Garden of Joy in Konza, at Celebration Gardens in Kitengela and at Success Gardens in Gatanga. This is part of our engagement with the investors – some of whom have already built their dream homes in the relevant projects, and kickstarting the handover process to ensure that the owners of the properties are able to take charge of their properties communally.

Going forward we have every intention to continuously add value to our investors. Happy May 2026.

Dr. George Wachiuri. Group Chief Executive, Optiven Group

OPTIVEN FOUNDATION BENEFITS FROM BOOKS | After the Plunge Book Review

Writing books is not easy, otherwise more and more men and women the world over would have a number of titled books under their names. For a man who started early and who is passionate about reading as well as writing, George Wachiuri released his newest book this year. The book titled "AFTER THE PLUNGE" is the third following in the path of his first book "Soaring Like an Eagle" and his second, "Unleash your full potential". At an event attended to the maximum, supporters and investors joined philanthropists to celebrate the milestone. With color, thanksgiving and pledges of support, the launch was a memorable event.

Wachiuri also advised that the proceeds of sales from the books would be of benefit to Optiven's philanthropy activities through the education pillar.

The Optiven Foundation is the soft arm of the Optiven group and is guided by four pillars, key of which is education. For 24 years, Optiven Group has been at the forefront in changing the lives of the less fortunate in the society.

The Optiven Foundation has through the years become a benchmark for it's initiatives – a move that has led to the organization being recognized and bequeathed with different awards.

The Foundation is supported through donations from stakeholders as well as proceeds of sales from the books written by Wachiuri, who is also the chairman and trustee.
